

AGENDA TITLE: Resolution Approving Boundaries of the Targeted Employment Area for the San

Joaquin County Enterprise Zone

MEETING DATE: September 17,2008

PREPARED BY: City Manager

RECOMMENDED ACTION: Adopt a Resolution approving the boundaries of the Targeted Employment Area (TEA) for the San Joaquin County Enterprise Zone in conjunction with San Joaquin County and cities of Stockton, Lathrop, Manteca. Tracy and Escalon.

BACKGROUND INFORMATION: On January 31,2008, parts of San Joaquin County, including areas of Lodi, received conditional designation as one of the State's eight newest enterprise zones. The purpose of an enterprise zone is to attract business investment and job creation to an economically distressed area through special state incentives over a 15-year period. One of the primary goals of an enterprise zone is to provide employment opportunities for residents of these areas.

The State provides wage tax credits to enterprise zone businesses that hire local workers who live within a "Targeted Employment Area (TEA)." Census tracts with **51** percent or more of their households earning less than the state's median household income (\$47,493) qualify for inclusion in the TEA. The boundaries of a TEA do not need to correspond with the enterprise zone, but only Census tracts of jurisdictions participating in the enterprise zone may be included. Residents of the proposed TEA automatically qualify for an Enterprise Zone Hiring Tax Credit voucher.

Within the Lodi city limits, the proposed TEA is larger than the enterprise zone boundaries and covers a majority of the City. Of the 15 Census tracts in Lodi, the eight included in the proposed TEA represent 78 percent of the City's population in the 2000 Census. The tracts in the TEA encompass the areas east of Lower Sacramento Road between Lodi Avenue and Turner Road, east of Ham Lane between Lodi Avenue and Kettleman Lane, and east of the Woodbridge Irrigation Canal between Kettleman Lane and Harney Lane. Reynolds Ranch also is part of the proposed TEA as part of a Census tract that extends beyond Lodi's city limits.

Establishing a TEA will vastly increase the number of eligible individuals from which businesses can select their employees and receive the hiring tax credit. The establishment of the TEA will increase employment opportunities for residents of distressed areas within San Joaquin County, including Lodi, whether they work for a Lodi business or one within another part of the San Joaquin County Enterprise Zone. Census tracts 42.01, 42.03, 42.04, 43.02, 43.06, 44.01, 44.02 and 45.00 in Lodi would be included in the TEA. Census data shows that in 2000 there were 18,259 people employed in those tracts and 1,686 unemployed.

APPROVED: Blair King, City Manager

Businesses may claim tax credits of up to \$37,440, and sometimes more, over a five-year period for hiring an employee living within a TEA. Businesses may also claim the credit for hiring employees who meet other criteria.

All municipal partners in the new San Joaquin County Enterprise Zone, San Joaquin County and the State Housing and Community Development Department must approve the designation of a Targeted Employment Area by resolution or ordinance before it becomes effective.

FISCAL IMPACT: None.
